REPLAY FEATURES

y Mode

**ow kind of RPG based on the philosophy of Epic, not just, "if
set it up". Here are the main differences to the
ventional RPGs:**

**oter-based. - in traditional RPGs, you start with a "Big Boss"
e main city, while the story is interweaved through
erent stories.**

**-based. - where you talk to characters in a first-person point
ew, but battle is third-person.**

ions. - The story is not made up of "classes" (the Heroes,

**Wizards, the Warriors...), but you take up sides of a kind of
tion".**

**exchange system. - You can join different sides and take up
r roles. You exchange among the friends to gain the
adship of others and then talk to them.**

or Graphical Optimization.

**amic lighting system. - Diffuse shading is used for 3D
es to achieve realistic lighting. Character outlines and
lows can be viewed even with low-luminance surroundings.
racter models. - In general, compared with 2D graphics,
ler effects on character models greatly expand the ability to
erentiate between characters that have greatly different
earances.**
