History In historical records the village was first mentioned in 1249.

Geography The municipality lies at an altitude of and covers an area of. It has a population of about 672 people. References External links Category:Villages and municipalities in Kamenica DistrictER-positive breast carcinoma patients who have posttreatment SD, longer time to recurrence and relapse. The post hoc subgroup analyses of the EAFP trial confirmed the efficacy of trastuzumab in the subgroup of patients who experienced SD after chemotherapy. The median time to local-regional recurrence in this subgroup was 41 months compared with a median time to relapse of 16 months in patients who did not have SD. The probability of recurrence was lower at 2 years among those who achieved SD after chemotherapy. Similar trends were observed for distant metastases. Post hoc analysis of the study also showed that patients whose disease stabilized had longer time to local-regional recurrence and disease-free survival. This is consistent with our observation that patients with an ECE substage of 2 or 3 are more likely to benefit from neoadjuvant chemotherapy and trastuzumab. A possible explanation for the higher frequency of ECE 2 or 3 is that the better response of tumors to neoadjuvant chemotherapy in these patients may be attributed to molecular factors, such as HER2 and the absence of hormone receptors. Additionally, research suggests that trastuzumab may induce apoptosis in HER2-overexpressing cells ([@bb0015]).

Windows 7 Ultimate. Trust your grandmother's wisdom when choosing an investment. Bill Buffett, the oldest son of one of America's greatest investors, Warren Buffett, calls his mother in Omaha every day and keeps her up to date on the latest in the family business of running Berkshire Hathaway Inc., Warren's holding company. If you want to be your own Warren Buffett, don't take my word for it. Ask a grandparent. There are plenty of smart people who have great insights into investing. I'll bet you could find a cardiologist who could teach you a lot about the risks and rewards of going to the doctor. Ask the physiologist and

---

there's bound to be someone with first-hand experience in human physiology. I'm not a grandparent and I've never had the privilege of speaking to my grandmother or her advice. But I'd like to share a few of her observations. One grandparent had a good rule of thumb. If you lost your grandparent's tooth, then it probably means a lot to you. If you lost your grandmother's tooth, then you better start thinking about long-term investing. In 1979, Bill and I went to Omaha to visit my grandmother. That day, our father, Warren, told her that we would soon be moving to New York City. She smiled and said, "I wouldn't worry about that. It's very

---

risky to buy a house in New York City." In a way, she was right. But, like she warned, we did indeed buy a house. One of the biggest mistakes of our lives. She also taught us one other important lesson.

When we were in college, we had a booklet of dividend-paying, publicly traded companies that we'd buy at the newsstands for 5 cents apiece. We'd flip through the booklet and pick the dividend stocks we liked, which were always coupon-clipping, low-priced, diversified, and steady performers.
