www.kadokawa.co.jp/game/otome-game/elden-ring-japanese-english/ Review by ublished in KADOKAWA, Sep. 27, 2016 I love the over-the-top melodrama and over-the-top fantasy. It's something I want to eat at the theater. This game is what I want to eat at the theater. It's a very well-made action RPG that uses the elements of anime to express a grand and fantastical story. It's not easy to find a game where these elements are so well put together. I'm satisfied. It has a bunch of elements that are easy to get excited about. There are boisterous battles and diverse attacks for all sorts of characters. Although combat is pretty easy, there's also a dash of an appealing and well-made RPG, allowing players to interact with the game while exploring the magical world. There are also some great places to see, such as the beautiful places around the forest, and the intriguing places in the other world. Of course, the story itself is my favorite. I felt like it was a story that begged to be represented in animation. I love the over-the-top melodrama and over-the-top fantasy. It's something I want to eat at the theater. While the game is a bit short to really feel it out (about 30 hours of actual gameplay), it's well worth the play time. The characters, the music, and the world that all come together are a bundle of fun. The romance is really well done as well. The battle system is an action RPG that really shines in what it does best. The use of magical boosts and attacks makes it feel like a fighting game. With the use of the RPG elements, battles have a feeling of depth and strategy, which is one of the strongest points of the game. I wasn't disappointed with the story. It's very well crafted and details like the flashes of lightening at dawn or epic moments like when the wolf is falling are truly unforgettable. It's a bit of a mixture of the rock and the vampire type of story. I think it's understandable since the author was inspired by the webcomic "Porco Rosso and Vlad Taltos". The characters are well-developed. I love the three main characters - bff6bb2d33

===== **Just like the other games in the series, in this one it is easy to beat. All you have to do is shoot monsters and get a good weapon early on. I have no problems with it. KEY FEATURES 100+ monsters! 12 Huge Dungeons PVP is fast and brutal. The harder you win, the worse you look Loot chests! Barbaric weapon abilities Uncommon and rare equipment 4 game modes Beautiful, detailed graphics I like the way the fighting in this one is very fast paced and action oriented. You are given a weapon and barely have time to think about what direction to turn in. The items are all nicely placed around the screen, so it is easy to find everything. Overall, this one was a fast, fun game that I recommend. It is a little on the easy side, so it may not appeal to those of you who are looking for a challenge.Q: how to send request with post in jquery i have Jquery Code \$.post(" {serverName: " + \$("#serverName").val() + "}"); But it doesn't work A: \$.post is asynchronous request and your server require a request with method post.
